I like the content, but the store promises: BONUS: 16 pieces of large-scale full-character artwork This was not included in the download. Changing to Thumbs-down to see if I can get someone to actually respond to me. I redownload this pack every 3 days to see if it is updated with the missing assets. The 16 full-size character portraits are not included in the download even though it says it is. UPDATE: My RMMV had an update today, and when I checked the DLC folder, there was a new folder called "BONUS PACK2" containing the 16 missing pieces of content.. Nice characters and a great value if it is discounted.. Nice characters and a great value if it is discounted..
